## PROBLEM

## SOLUTION

---

Absence without a reason

filing of a report to the teachers. (If the case repeats 3 times, it will result in a talk with a teacher and kick from the group)

Absence with a reason

Work from home on the assigned task

Low Work Efficiency

Talk about it (If doesn't help, report to the teacher. If situation is unchanged kick from the group)

Bad Quality of work

Taking over the task by someone who knows how to make it better or involving whole group to help

Can't agree on final look of the product

Try to combine bits of each solution with each other to make a compromise

Client is not satisfied with the result

Strategist should take care of communication between group and client in order to keep the client up to date with work we make so we can receive feedback and implement it into the work we are making

Group Miscommunication

Strategists should take care of communication between group members and client so the work stays efficient and the result becomes acceptable

- ! If the agreements are not adhered to, initial face-to-face discussions will be conducted to address the issue seriously. If the situation persists unchanged and the agreed-upon rules continue to be violated, a discussion with the teacher will follow, potentially leading to removal from the group or reassignment of tasks to another member as previously arranged in the contract's initial terms.
